Empowering
achievement through
SELF-REGULATION

positivity®

Groundbreaking support for
CLASSROOM MANAGEMENT AND SELF-REGULATION

Research shows that self-regulation is the foundation for success in learning and participating in day-to-day activities. For educators serving students with learning or behavior challenges, added support for social-emotional learning is especially vital.

Empower self-regulation and independence in your students with the first integrated, online solution that supports the behavior intervention process from start to finish.

DELIVER STUDENT-CENTERED STRATEGIES

Proactively promote social-emotional learning and self-regulation to pave the way for academic and behavior growth.

SIMPLIFY CLASSROOM MANAGEMENT

Effortlessly integrate behavior management into daily routines to keep the focus on instruction and learning.

MONITOR GROWTH WITH ROBUST DATA

Closely manage the behavior intervention process through powerful planning, tracking, and reporting options.
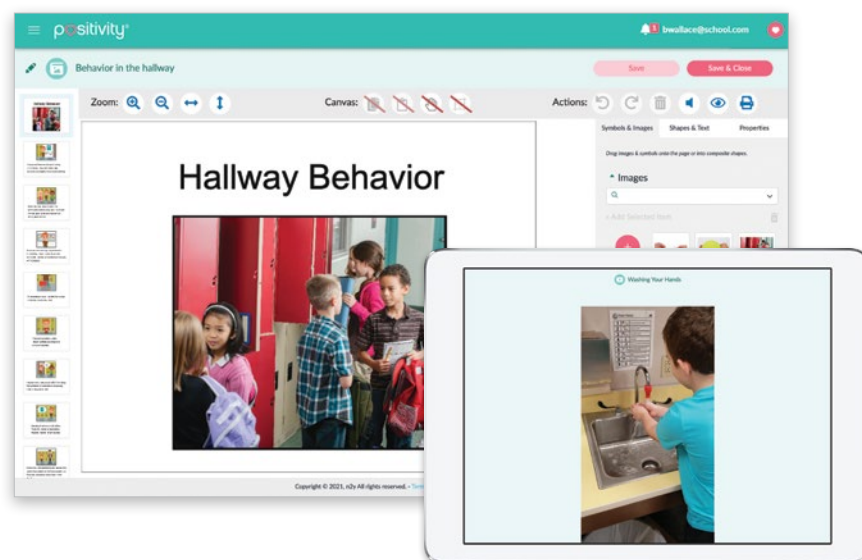

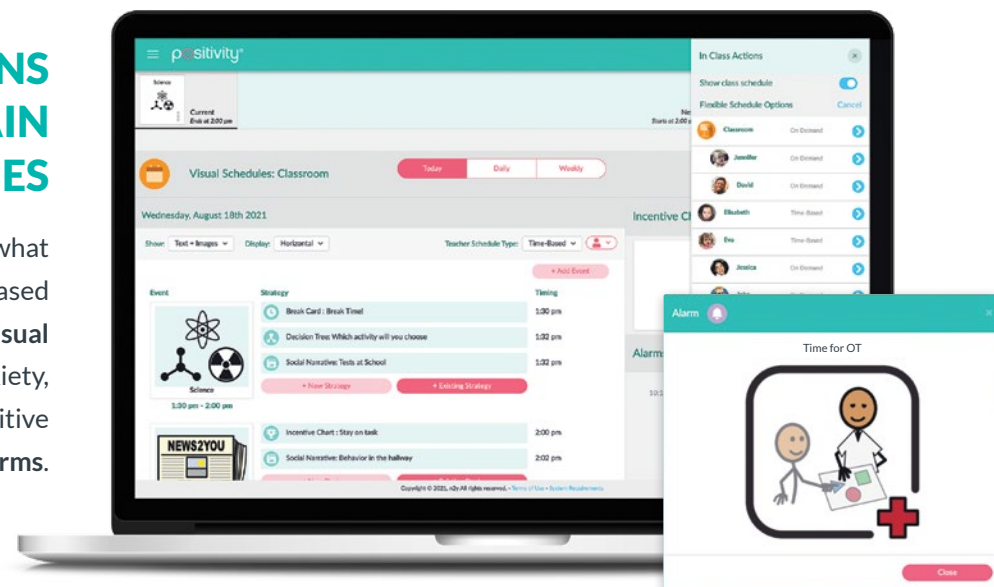

Deliver
STUDENT-CENTERED strategies

The eight integrated, data-driven strategies in Positivity develop the self-regulation skills that unique learners need to take ownership of their own academic and behavior success. And you can provide equitable access to the strategies for all students with built-in tools such as text to speech and symbol support.
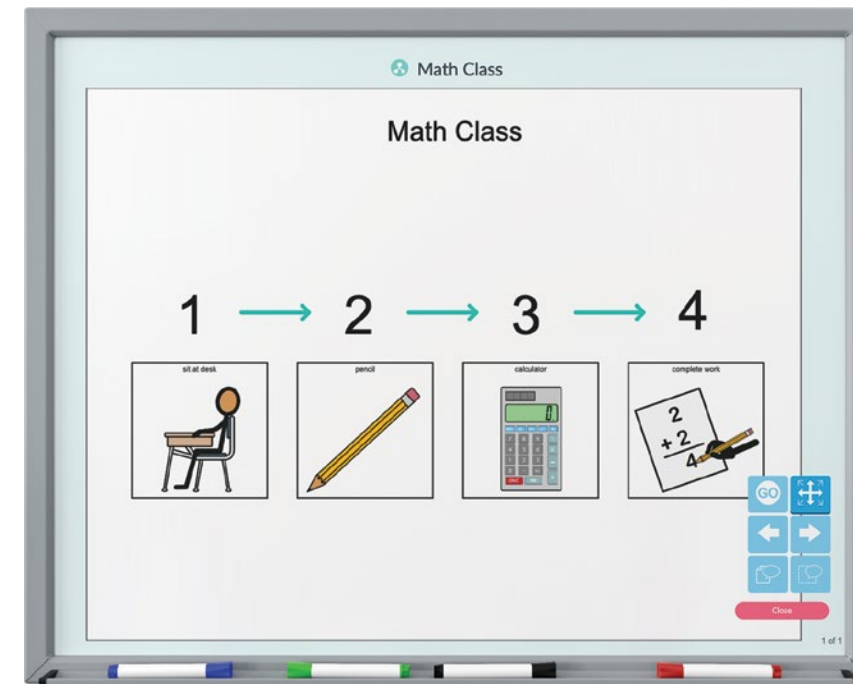

SET EXPECTATIONS AND MAINTAIN ROUTINES

Keep students aware of what comes next with time-based or on-demand daily **visual schedules** that reduce anxiety, and stay on top of time-sensitive actions with helpful **alarms**.

DEMONSTRATE DESIRED BEHAVIORS

Show positive behaviors in a relevant, accessible way with premade **social narratives** and easily use templates to create your own. Make a real connection by using your students or their peers in **video modeling** of prosocial behaviors.
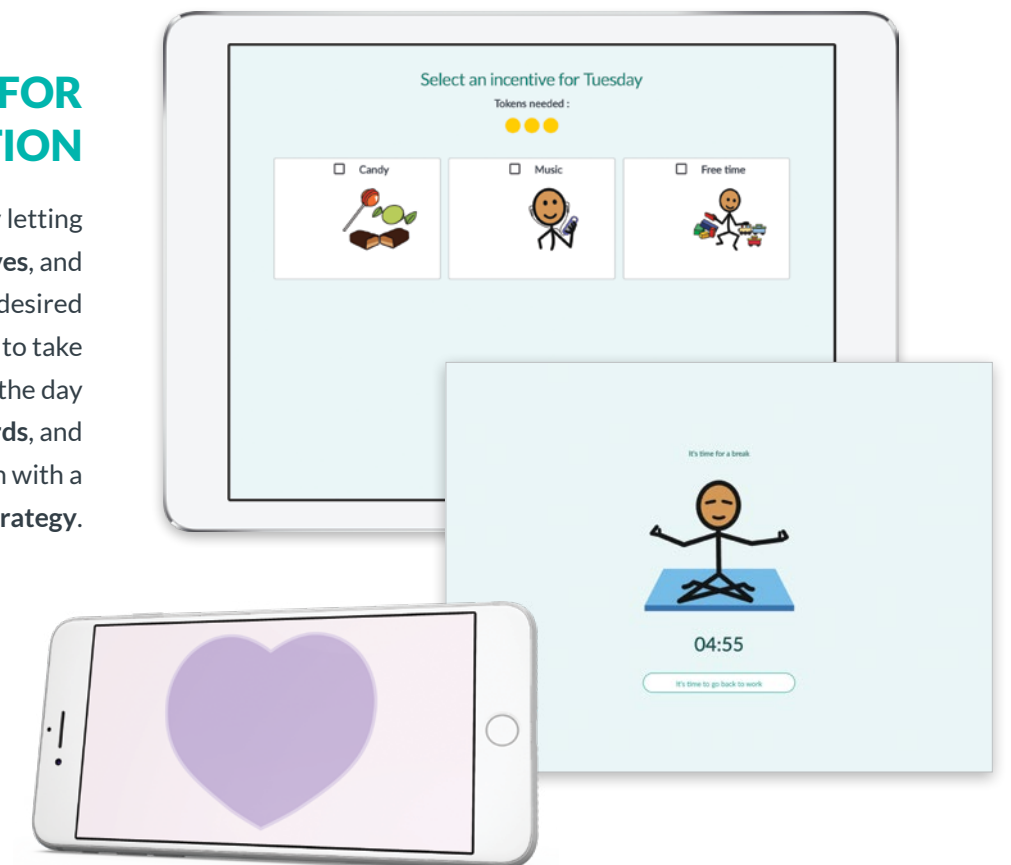

DEVELOP EXECUTIVE FUNCTIONING SKILLS

Use customizable **decision trees** and workflows to help students start activities and stay on task without teacher attention.

PROVIDE TOOLS FOR SELF-REGULATION

Maximize student motivation by letting them choose their own **incentives**, and give tokens when rewarding desired behaviors. Empower learners to take a break when needed during the day with pre-assigned **break cards**, and help them refocus or calm down with a visual cue to use the **breath strategy**.
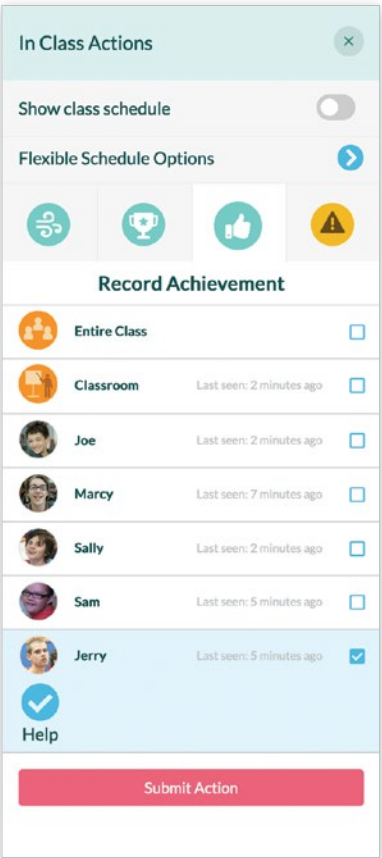

SIMPLIFY classroom management

Positivity gives you resources integrated into daily routines to reduce student anxiety and facilitate behavior interventions. You can easily customize and pre-assign strategies for greater impact wherever students are learning! This results in a safe, productive learning environment for teachers and students.

SPEND MORE TIME ON INSTRUCTION

Keep the focus on learning by quickly addressing prosocial and interfering behaviors as they occur with just-in-time access to strategies. And thanks to powerful automation there's no need to hand-tabulate events!
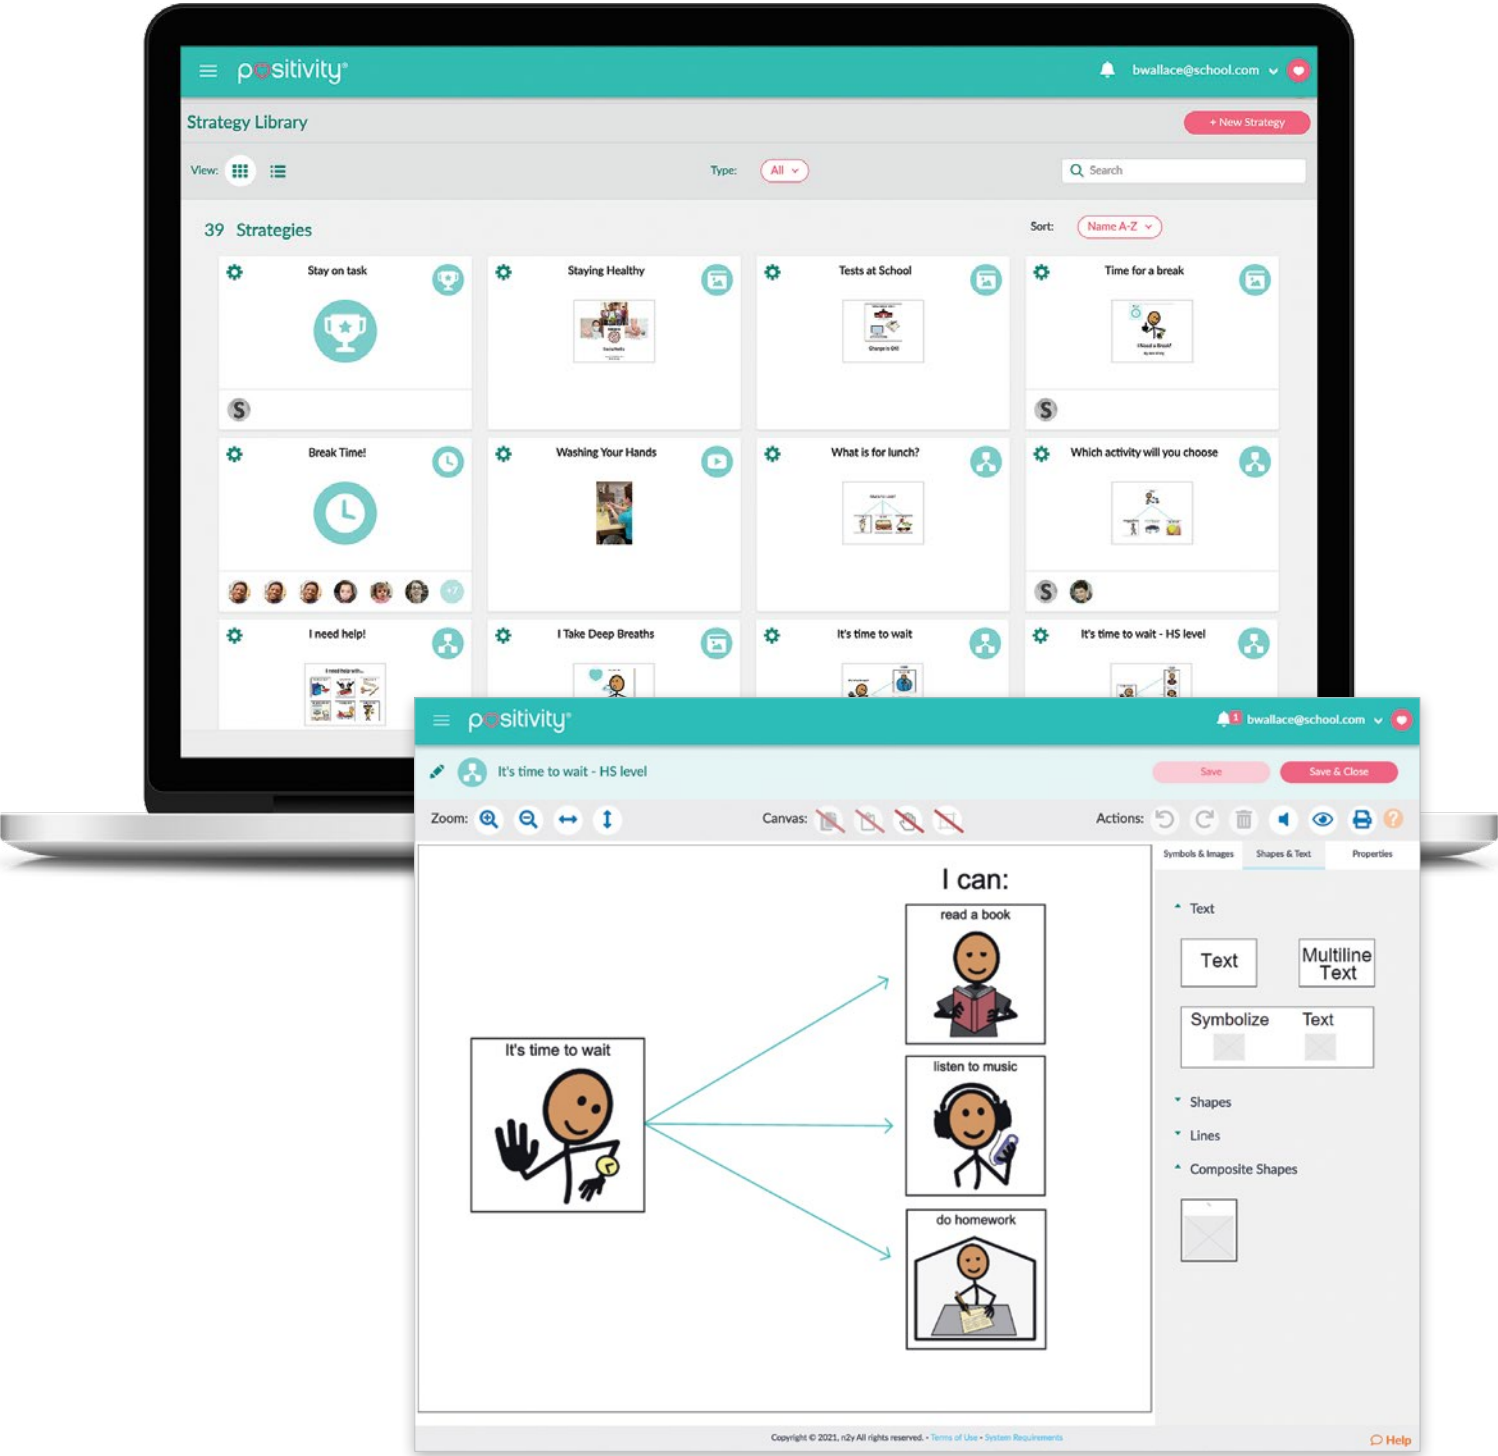

APPLY STRATEGIES CONSISTENTLY

Boost self-regulation and reduce incidents with consistent delivery of strategies that follow students throughout the day—to the cafeteria, therapy, a general education classroom, or a remote learning setting.
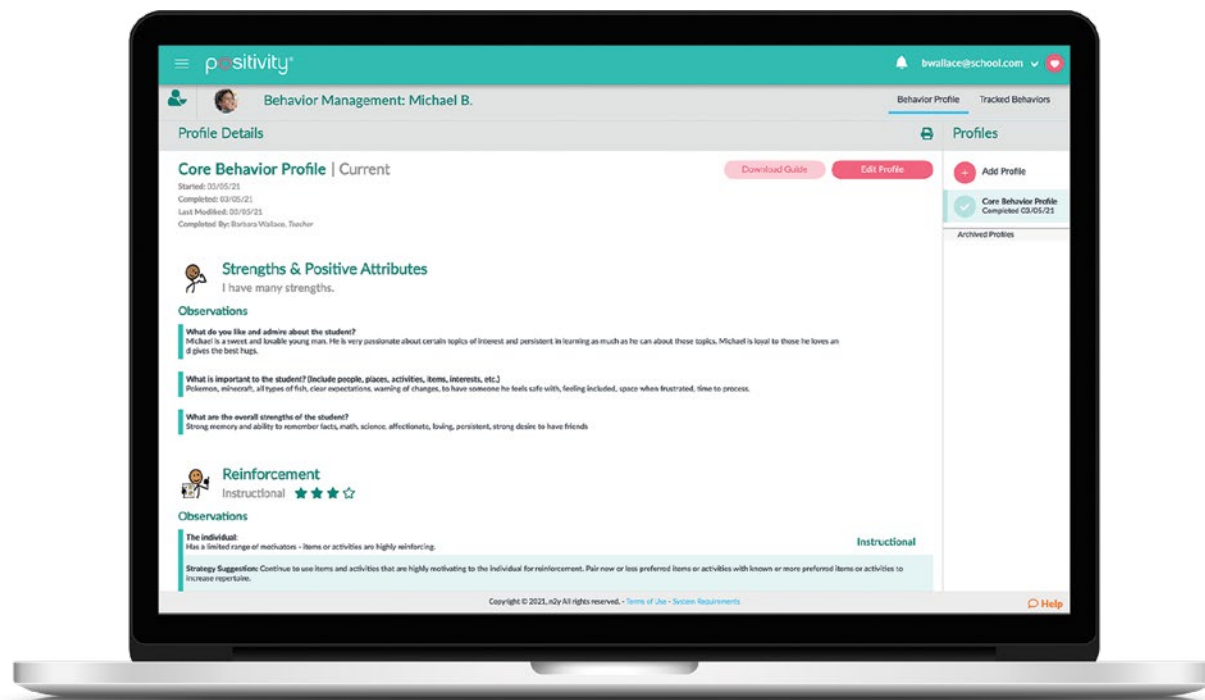

SAVE TIME WITH CUSTOMIZABLE TEMPLATES

Easily build, deliver, and save strategies and quickly locate your favorites when you search the library by type or keyword.
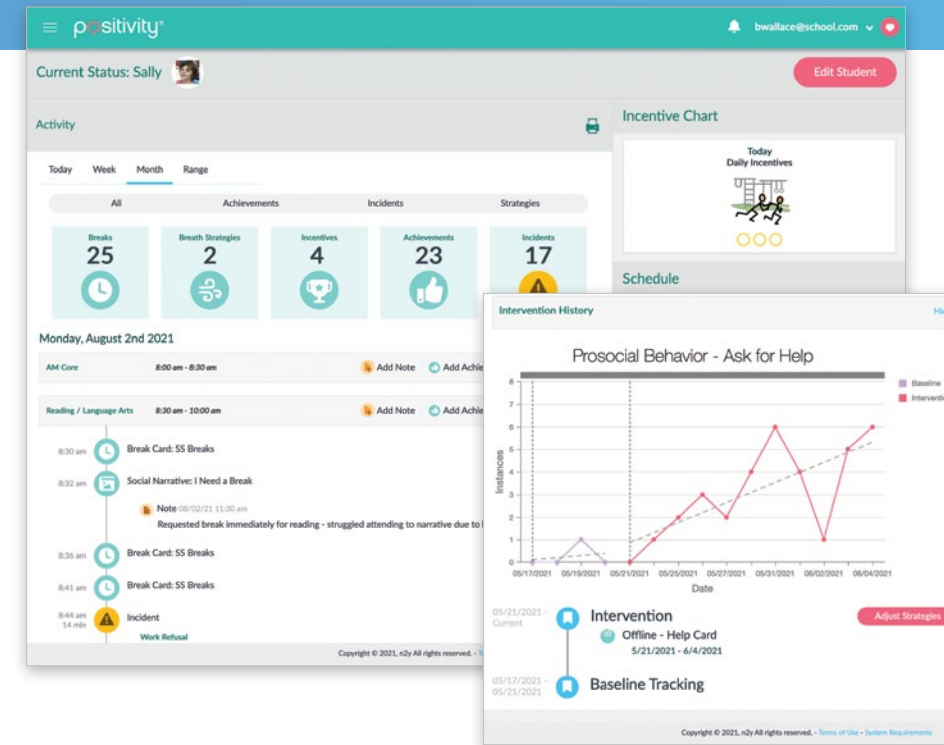

Monitor growth with
ROBUST DATA

Rely on the extensive data within Positivity to successfully plan and document behavior interventions, leading to positive outcomes for more students. This easy-to-navigate online platform contains powerful tools that enable real-time documentation of behavior events and automate reporting to ease the burden of demonstrating compliance. Detailed visual reports keep IEP teams informed of progress toward behavior goals to support data-driven decision-making.

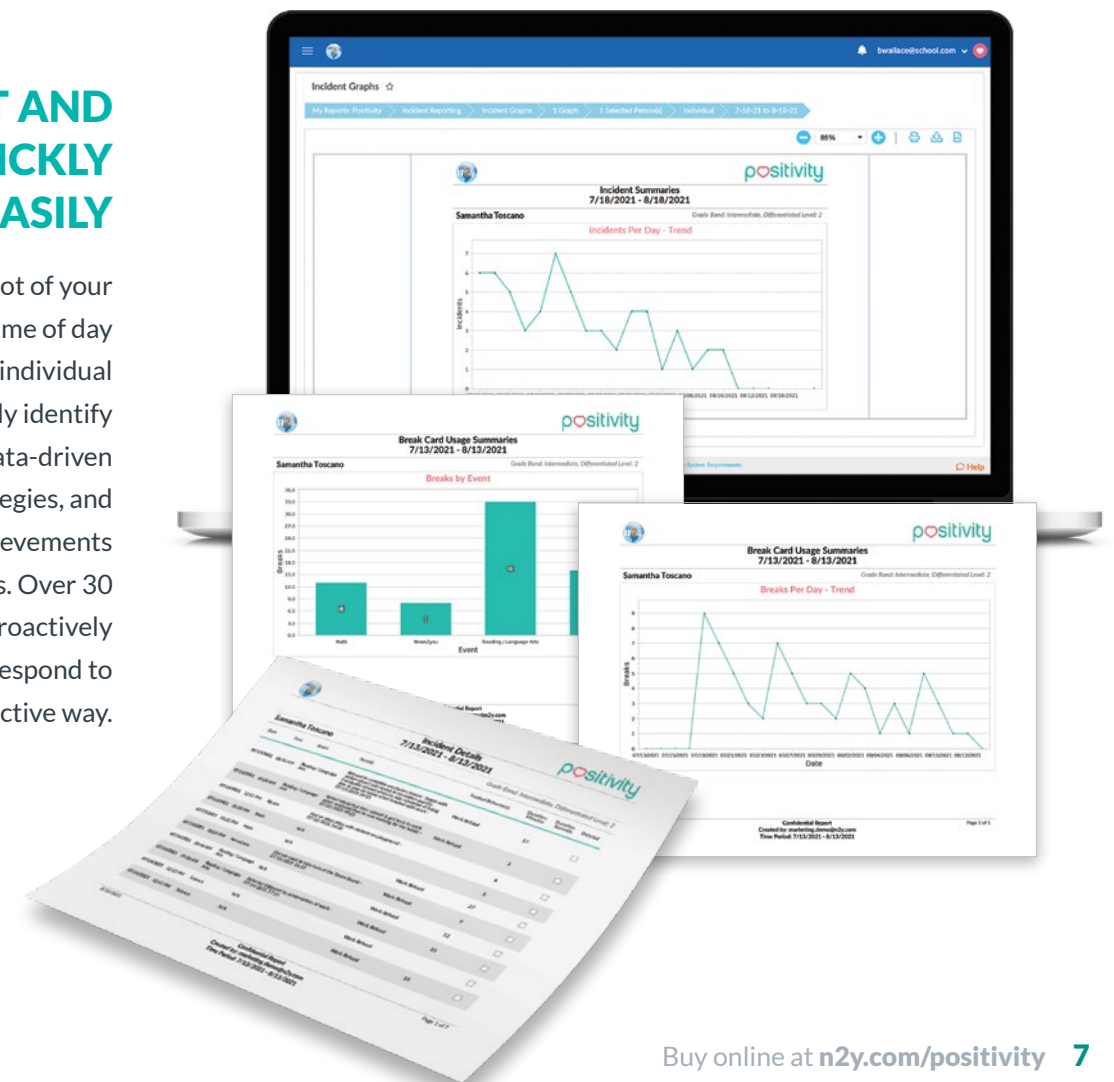

USE DATA TO MONITOR PROGRESS

Easily gather and use data to plan day-to-day strategy use, identify whether strategies are successful, make necessary adjustments, document IEP accountability, and manage fidelity and consistency. Strengthen the school-to-home connection by sharing the information with families.

REPORT AND DOCUMENT QUICKLY AND EASILY

Get a clear daily snapshot of your strategy usage by type, time of day or week, academic period, individual student, and more. Easily identify and analyze trends, make data-driven decisions about future strategies, and document incidents and achievements with detailed observations. Over 30 report types enable you to proactively plan, evaluate, and respond to behaviors in a timely, effective way.

SUPPORT THE ENTIRE BEHAVIOR INTERVENTION PROCESS

Identify present levels of academic and functional performance (PLAAFP) in behavioral skill areas by developing a Core Behavior Profile, and then target specific behaviors for tracking and intervention. Ensure the fidelity of all behavior interventions through consistent delivery of data-driven strategies.

MAXIMIZE ENGAGEMENT
with n2y's Total Solution

Positivity's comprehensive self-regulation strategies are integrated into n2y's Total Solution, offering powerful support for the whole education team.

If you subscribe to Positivity and already use other n2y solutions, students' visual schedules will appear in Student View for each, helping them advance through their day in any learning setting. Engaging and familiar symbols from SymbolStix PRIME®, found throughout n2y programs, provide consistent visual supports in Positivity.

Count on our AWARD-WINNING INSTRUCTIONAL RESOURCES

positivity®

$474⁹⁹ per year

WHAT'S INCLUDED?
A ONE-YEAR LICENSE PROVIDES:

- Unlimited use of Positivity's proactive strategies, classroom management tools, data collection and reporting for one service provider and 15 students, with Student View access

- The power of a Core Behavior Profile for each student to establish a baseline for planning behavior interventions and tracking progress

- Accurate data converted into more than 30 report types, to guide proactive decision making, strategy planning, and successful behavior outcomes

- Access to select SymbolStix symbols plus templates for building and customizing strategies

- The ability to quickly develop, save, search, and reuse strategies you've built

- An intuitive, easy-to-use platform that integrates with other n2y solutions

- Access to regular updates and additions

- Online self-paced training and a live virtual working session where you can ask questions and get answers—you'll be ready to teach from day one!
